	05N / 23N	740M x 45M	Asphalt		
	05G / 23G	740M x 45M	Grass		
	17G / 35G	500M x 50M	Grass		
AIRSPACE	CMATZ. Sfc>A3000ft; ATZ Sfc>2000ft G				
CIRCUITS As per ATC	FIXED WING: A/C (inc GA). 1200ft QFE FIXED WING; GA LIGHT A/C. 800ft QFE HELICOPTERS; 500ft				
NO FLY	Amesbury BELOW 1000ft QFE; A1500. Avoid over-flight of all villages within the ATZ				
LOCAL HAZARDS	All home A/C may be involved in 'special operations', resulting in non-standard flight patterns within the CMATZ and ATZ. ALL visiting Pilots Must follow ATC instructions and should keep a careful lookout for traffic. Accurate HEIGHT CONTROL will be essential.				
HELICOPTER OPERATIONS	VFR arrivals by light rotary-wing aircraft should route direct from the west of the MATZ boundary to North Point at or below 400ft QFE, unless otherwise agreed by ATC. VFR Departures from North Point should route outbound to the west climbing to 500ft QFE.				
SPECIAL RULES	Aircraft overshooting or executing M/App are to maintain Runway Centre-line to avoid impinging on the visual circuits to the north and helio operations 'Southside'. Exceptionally , if a confliction arises with aircraft in the Northern circuit, use of the area between the Runway Centre-line and 'Southside' as depicted on the AD chart, is permitted. IFR departures as instructed by ATC.				
REMARKS	CAUTION. Thruxton AD 6nm NE of Boscombe Down. Visiting A/C should land from first approach.				

PILOTS: PLEASE PUT YOUR A/C CALLSIGN AFTER YOUR NAME. NOT TO BE USED FOR REAL WORLD OPERATIONS
